

These simple operating instructions illustrate the functions and benefits the chair has to offer.

Care for your chair

To maintain the cloth upholstery carefully vacuum regularly. Marks and stains can be removed with the appropriate commercial cleaner.

Warranty

This product includes a comprehensive warranty. Please contact your supplier for further details.

Adjustable seat height

Press down on the lever and remove weight from the seat. The seat will raise and will lock at the height the lever is released.

Syncro mechanism – weight tension

To strengthen the syncro mechanism to desired weight, rotate the lever clockwise to increase tension and anti-clockwise to decrease the tension.

Height adjustable arms

Lift the rise and fall ratchet arms upwards to desired height, (when they reach their maximum height position, arms will move downwards to the lowest position).

Seat slide

Lift lever, move seat to the required position and release lever to lock.

Adjustable lumbar support

Move the back of the chair up or down to adjust the position of the integral lumbar support.

Back rake adjustment

Lift the lever and lean back against the back of the chair until you are in the desired position. To release position push down on the lever and lean forward.

Multi adjustable arms

Place your hand on the centre of the arm rest, then rotate towards the left or right until you have the desired position.
